MEMORANDUM - 22-012 (Revision)

TO: Holders of "Truck Sizes, Weights, and Permit Manuals," Self-Issuing Permit Holders, and All Permit Issuing Authorities

FROM: Marc Anderson - State Maintenance Engineer

DATE: December 14, 2021

SUBJECT: **Height and Width Restriction on US 20/ WY 789 (Long Term)**

Wind River Canyon Tunnels on US 20/WY 789, Shoshoni - Thermopolis, Tunnel 1 RM 116.17, Tunnel 2 RM 116.29 and Tunnel 3 RM 116.39, both directions of travel, necessitates the restriction of overheight vehicles to a maximum of **18 feet** and overwidth vehicles to a maximum of **24 feet**.

Overheight vehicles from **15 feet to 18 feet** require adequate traffic control to temporarily close and stop all traffic to allow the overheight vehicle to proceed down the center line of the road.

Overwidth vehicles from **12 feet to 24 feet** require adequate traffic control to temporarily close and stop all traffic to allow the overwidth vehicle to proceed down the center line of the road.

Prior to any movements that are over 12 foot wide and/or 15 foot in height, which requires a temporary road closure, the following individual needs to be notified. The permit holder is responsible to provide adequate traffic control for the temporary closure. WYDOT and the WHP will not provide traffic control assistance unless there are extenuating circumstances.

WYDOT Contact:

Kaia Tharp - Thermopolis

(307) 864-3200
